THE FOREVERMARK PROMISE

Forevermark is the diamond brand from the De Beers Group of Companies, the world's foremost diamond experts for over 125 years.

Forevermark diamonds are the world's most carefully selected diamonds. Each is inscribed with the Forevermark icon, a symbol of our promise that the diamond meets our exacting standards for beauty, rarity and responsible sourcing. Every Forevermark diamond is genuine, natural and untreated.

The Forevermark promise is underpinned by the world–class Forevermark Pipeline Integrity Standard, which is developed in collaboration with the British Standards Institution. This Standard governs the practices of our Forevermark partners and ensures complete traceability of Forevermark diamonds throughout the pipeline, starting with an approved diamond mining source.

Full compliance with the Pipeline Integrity Standard is independently monitored by the leading inspection, testing and verification organization, SGS, providing complete reassurance that the Forevermark supply chain is responsible at every stage.

WORLD–CLASS GRADING

To standardize descriptions of every diamond's characteristics, a language known as the 4Cs was developed by the De Beers Group of Companies in 1939. Each of the 4Cs describes a diamond's specific characteristics – its cut, color, clarity, and carat weight.

This Forevermark Diamond Grading Report provides an accurate and unbiased assessment of your Forevermark diamond's 4Cs. Your diamond has been independently evaluated multiple times against rigorous criteria at the renowned Forevermark Diamond Institute. In addition to the 4Cs, the Grading Report includes the unique identification number inscribed on the diamond and a security hologram to provide reassurance that it is valid and genuine.

Every diamond is unique, so two diamonds with the same 4Cs criteria may be very different. Forevermark uses criteria beyond the 4Cs to select diamonds, examining the diamond's precise symmetry and proportions and the finish of every facet. Therefore, you can be assured that your diamond is truly beautiful enough to carry the Forevermark inscription.

To discover more, visit Forevermark.com.

COLOR

Excluding fancy colors, diamonds are graded on a color scale which ranges from D (colorless) to Z (light yellow or brown). To ensure accuracy, a master set of diamonds is used as a benchmark for each color grade under controlled lighting conditions.

Forevermark inscribes diamonds from D to L colors as well as fancy colors. Colors below L will be considered for diamonds over two carats that meet our beauty standards.

CLARITY

Naturally–occurring internal features (inclusions) and external characteristics (surface) are viewed at 10x magnification and graded on a clarity scale, ranging from FL (Flawless) to I (Included).

Forevermark diamonds are available from Flawless to SI2, and Forevermark experts reject diamonds where we believe the clarity interferes with the beauty of the diamond.

CUT

A scale of Excellent to Poor measures the overall appearance of a round brilliant diamond determined by its proportions, polish and symmetry.

Each Forevermark round brilliant diamond must achieve a 'Very Good' or 'Excellent' cut standard.

CARAT WEIGHT

Carat refers to the unit of weight for diamonds. One carat is a fifth of a gram. It can be divided into 100 "points" (e.g. a 0.50 carat diamond is the same as a 1/2 carat diamond).

Forevermark inscribes diamonds of 14 points and above.

This diamond is graded based on the Forevermark Diamond Grading System.

Important Limitations

This report is not a guarantee, valuation or appraisal, and Forevermark has made no representation or warranty about this report or the diamond referred to in it. This report is provided "as is" and without warranties of any kind, either expressed or implied. This report contains a description of the characteristics of the diamond based on Forevermark's grading, testing, examination and analysis, using Forevermark techniques and equipment at the time of examination. Therefore, opinions on the characteristics referred to herein may reasonably vary.

A similar report provided by a third party laboratory may differ from this one depending on when, how and by whom the diamond is examined, and the changes and improvements in techniques and equipment that may have occurred between the two examinations. It will not always be possible to determine if a diamond has been treated or processed, and Forevermark offers no guarantees in this respect. Forevermark has provided this report for a small fee compared to the present and potential value of the diamond referred to because it is able to limit Forevermark's liability as follows:

FOREVERMARK AND ITS DIRECTORS, EMPLOYEES AND AGENTS SHALL NOT BE LIABLE FOR ANY LOSS, DAMAGE OR EXPENSE, OR ANY SPECIAL, INDIRECT, INCIDENTAL, EXEMPLARY, PUNITIVE, STATUTORY, OR CONSEQUENTIAL DAMAGES, INCLUDING LOST PROFITS, RESULTING FROM ANY ERROR OR OMISSION FROM THIS REPORT OR FROM THE ISSUANCE OR USE OF THIS REPORT, EVEN IF THE LOSS, DAMAGE OR EXPENSE WAS CAUSED BY FOREVERMARK, ANY OF ITS DIRECTORS, EMPLOYEES, AND AGENTS, OR BY THE ACTS OF OTHERS EVEN IF THEY WERE ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

The above limitation of liability extends to the person for whom this report was prepared and to every other person to whom this report is distributed or shown.

Please see Forevermark.com for translations of Important Limitations.
